SUBJECT too long. Original SUBJECT is  
Request that Medically Useful Antibiotics Be Banned from Animal Feed

----- Original Message Follows -----

I am requesting that medically useful antibiotics be banned from animal feed. It is already evident that something is very wrong among us when so many people are becoming ill from so many bacterial infections and antibiotics don't seem to work on the problem as well as before.

I am a member of the Center for Science in the Public Interest (CSPI). If this practice is not stopped, it can leave doctors with no means to treat life-threatening bacterial infections in humans. For that reason I support CSPI.
